

TASK 1

Protection measures during the Covid pandemic did more harm than good.
Discuss with the other student.

TASK 2

Talk to a patient who is affected by prescription drug abuse.

Ask the patient about the following things:

1. introduction – ask 2 questions to find out about some details of the patient's problem
2. symptoms or pain
3. take a medication history – ask at least 3 questions
4. social and family history – ask questions about 2 aspects

Inform the patient about the following things:

5. explain the long-term effects of drugs and consequences of drug abuse
6. advise further treatment / ways of coping with the problem – at least 3 pieces of information

TASK 3

Describe the hospital team and healthcare facilities.
